Company Overview

IT Automation LLC, headquartered in Cary, North Carolina and doing business as **Sequora Partners**, is an **SBA-certified Woman-Owned Small Business (WOSB)** delivering software products and IT services to government agencies. We specialize in application modernization, AWS and Azure cloud integration, secure APIs, DevSecOps, data pipelines and AI-enabled workflows.

We turn complex agency requirements into secure, production-ready systems with faster delivery, lower risk and controlled cost.

Core Competencies

- Custom Application Development
- Agentic AI Solutions
- Intelligent Workflow Automation
- Cloud Modernization
- Mobile Application Development
- Agile Project Management
- Data Engineering & Analytics
- API & Systems Integration
- DevSecOps & Test Automation
- Cybersecurity & Compliance
- Enterprise Platforms
- Digital Government Solutions

Distinctive Value We Deliver

Secure, human-overseen AI

Sequora Agentic AI integrates with enterprise systems for automation and analytics, with people approving critical decisions.

Proven product engineering

We build our own public safety products, **SafeAI**, **Spot Onn** and **CallAssist**, plus case, municipal and program solutions.

Security built into delivery

Least-privilege access, MFA, encryption, audit logging and vulnerability testing for CJIS-aligned, high-security environments.

Prime & teaming ready

Prime contracts and strategic teaming across federal, state and local government, with disciplined Agile execution.
